

Dot-Matrix Printers

Reliable And Flexible

1000 and 2000 series

Dot matrix printers are reliable all-rounders and therefore exactly the right decision when large amounts of data with carbon copies have to be printed quickly and inexpensively. They are the ideal solutions for use in difficult conditions and are insensitive to heat, cold or dusty environments.

In addition to the processing of continuous paper, single sheets can also be fed. There are hardly any limits to the print media. Whether multilayer forms, thicker paper or labels - all of this can be processed easily. If you want to rely on reliability, durability and high quality with low page costs when printing, our dot matrix printers are the right choice for you.

DEC printing solutions

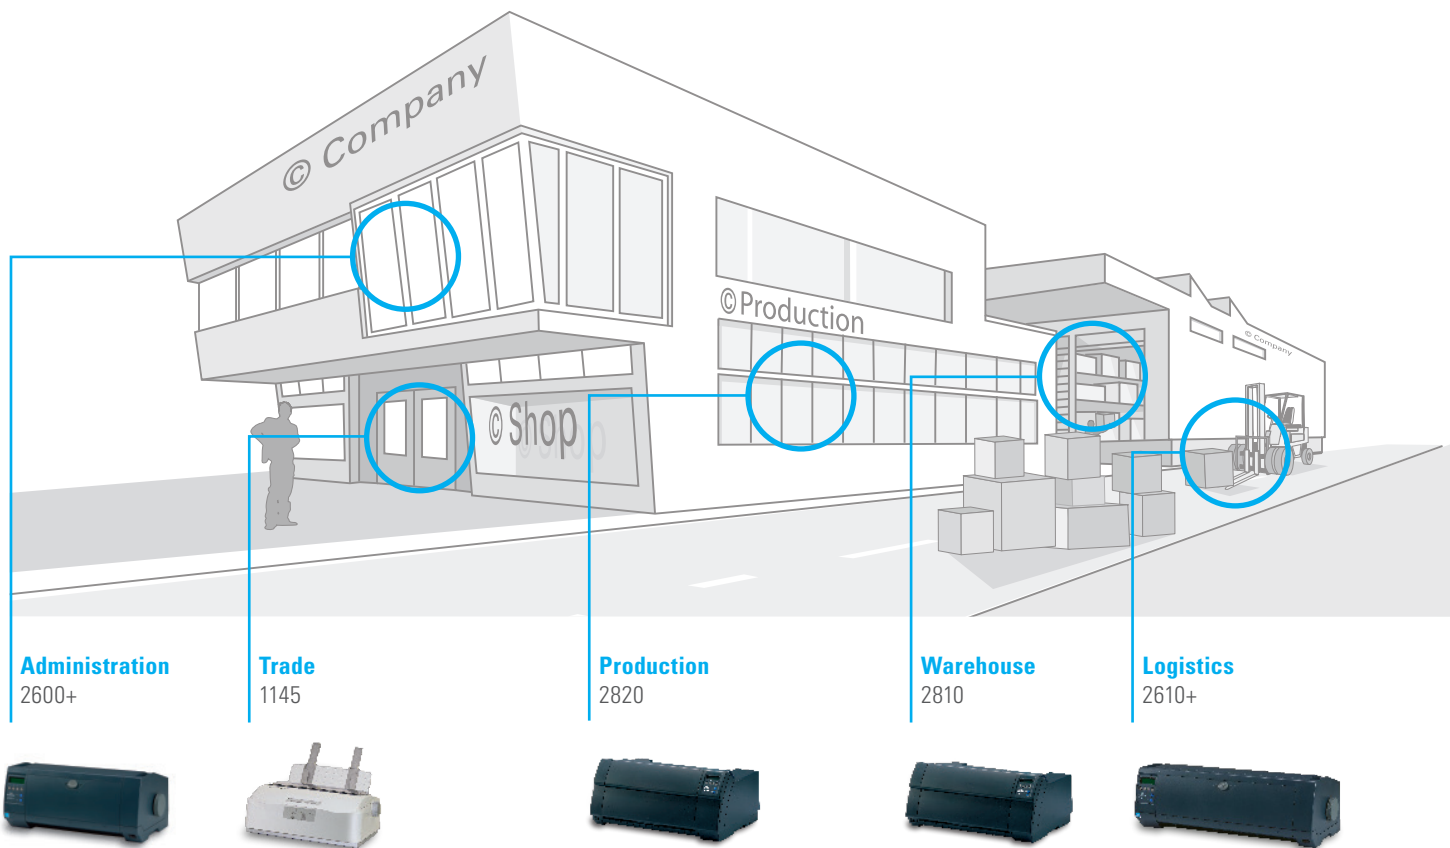

For the Digital / Compaq VAX / VMS / Open VMS environment, we have developed special DEC ANSI emulations for easy integration for our dot matrix printers. With a total of six different models, there is a wide range available for all requirements. Thanks to the two-line LC display, all settings can be made quickly and easily – and not only on site, but also centrally for network printers via the DASCOS web interface.

Highlights at a glance

- Print speed up to 1,000 characters / sec.
- Flexible paper input for continuous paper and single sheets
- Long lasting prints
- Optional automatic cutting devices
- Extremely economical operation
- Suitable for use in difficult conditions
- Long-life ribbon
- Low maintenance
- A variety interfaces
- Up to 6 carbon copies

Use in line printer environment

The Tally Dascom 2810/2820 models are also available in an IGP version and support IGP / PGL and QMS Code V emulations. In the optionally available printer cabinet, the paper can be stored free of dust and dirt and is optimally fed to the printer.

Solid And Robust

	Printhead	Print speed	Print volume	Number of copies	Paper feed	Emulations	Interface	
1140, 1145	9/24 wires	up to 400/450 cps	up to 6,000 pages/month	1 original + 6 copies	1x fanfold (rear), single sheet manual	IBM, Epson	1 x parallel, 1 x USB or 1 x serial, 1 x USB	
1140 RH	9 wires	up to 400 cps	up to 6,000 pages/month	1 original + 4 copies	1x roll paper (rear)	IBM, Epson	1 x parallel, 1 x USB or 1 x serial, 1 x USB	
2600+, 2610+	24 wires	up to 683 cps	up to 20,000 pages/month	1 original + 5 copies	1x fanfold (front), single sheet manual	MTPL, IBM, Epson	1 x parallel, 1 x USB, 1x USB Host, 1 x Ethernet (IPv6)	
2810, 2820	24 wires	up to 800/1,000 cps	up to 40,000/50,000 pages/month	1 original + 6 copies	1x fanfold (front)	MTPL, IBM, Epson IGP version: IGP/PGL, QMS Code V	1 x USB, 1 x USB Host, 1 x Ethernet (IPv6)

ABOUT DASCOM

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

DOT MATRIX PRINTERS

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

FLATBED PRINTERS

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

MOBILE PRINTERS

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

THERMAL PRINTERS

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.

CARD PRINTERS

DASCOM card printers reliably produce printouts on a large number of plastic cards and have advantages that set them apart from other card printers. Our business devices are designed for demanding applications and larger print runs that can be output on one or both sides.

The logo for DASCOM, featuring the word "DASCOM" in a bold, sans-serif font. The letter "A" is stylized with a red triangle pointing upwards from its base.
